

**CFM Emergency Resolution Process, Not During Convention**

*Emergency resolutions may only be introduced outside of the annual convention by the Executive Director, President, or a Resource Advisory Committee Chair.*

*Emergency resolutions are submitted directly to the Resolutions Committee. The Resolutions Committee may ask the appropriate Resource Advisory Committee to study the issue and make a recommendation, or may choose to handle the issue independently.*

*Resolutions Committee votes to accept resolutions. If the resolution passes, the Resolutions committee advances it to the Board of Directors. If the emergency resolution fails to pass committee, it is dead.*

*If a resolution passes a vote by the Board of Directors, it becomes part of that year's official policy platform. If it does not pass, the resolution is dead.*
